FÜRSTENFELDBRUCK, June 2019

Güntner: Reinforcement of the Industrial Refrigeration Team

A new team member joined Güntner's Industrial Refrigeration Department in February 2019: The team in this steadily growing business unit now benefits from the long-standing experience of Karl-Heinz Cramer.

Following his apprenticeship as a motor mechanic and his subsequent mechanical engineering studies, Karl-Heinz Cramer began his refrigeration career at Linde AG in 1990. He had worked there as a project engineer in plant engineering for 10 years, and in field sales in the region of Northern Germany for another four years. He then held Sales positions with renowned companies.

Industrial Refrigeration expertise

Since the beginning of February, Güntner customers active in the business unit of Industrial Refrigeration have relied on his profound professional expertise in this field. As a competent consultant for every industrial application, he reinforces the Industrial Refrigeration Team and shares his know-how as a contact for every aspect of planning, unit selection and unit design.

About Güntner

Based in Fürstfeldbruck near Munich, Germany, Güntner GmbH & Co. KG is a world leader in the manufacture of refrigeration and air conditioning equipment components. With approx. 3,600 employees worldwide and production sites in Germany, Hungary, Romania, Indonesia, Mexico, Brazil and Russia, the company shows a strong presence for their partners in all markets. Decades of experience in the industry and the consistent integration of the latest technologies and research findings ensure the high-quality standard of Güntner solutions. The international areas of application comprise energy & process cooling projects, industrial and commercial applications in the field of food production and storage as well as HVAC applications for buildings and specific applications such as server room cooling.
